strengths for a

narrative practices and the social construction of self in ... - one source of the narrative-self affinity is a shared temporal dimension: both the experiences of self and the events in a narrative are organized with respect to time (Ricoeur 1984). The narrative form is thus especially well suited to representing that basic psychological dimension of the self that Halliwell (1955) called "self-continuity."

narrating the self - frontpage - may similarly detail a narrative through realistic representations or may mini-malistically evoke a narrative through metaphor and juxtaposition of shape, texture, and color (41). The narrated self personal narrative simultaneously is born out of experience and gives shape to experience. In this sense, narrative and self are inseparable. self ...

interactional positioning and narrative self-construction - interactional positioning and narrative self-construction abstract many have proposed that autobiographical stories do more than describe a pre-existing self. Sometimes narrators can change who they are, in part, by telling stories about themselves. But how does this narrative self-construction happen? Most explanations rely on the
